

Praful Dokrimare

Aspiring software engineer eager to contribute to world's new innovative solutions. Passionate about software development and problem-solving, with proficiency in web technologies. Seeking an opportunity to apply technical skills and grow in a dynamic work environment.

WORK EXPERIENCE

Codesoft - Web Development Intern

Jan 2025 - Mar 2025

- Developed responsive web applications using HTML, CSS, JavaScript, and React.js.
- Built and optimized website components to improve performance and user experience.

EDUCATION

Government College of Engineering, Yavatmal.

CGPA-7

Pursuing B. Tech in Electronics & Telecommunication Engineering.

2022-2026

PROJECT

MediFolio – Medical History Storage Web Application

- Built a tablet-style hardware device using Raspberry Pi, touchscreen, and biometric fingerprint sensor for secure and quick access to patient records.
- Enables doctors to access critical medical history immediately during emergency situations, helping save time and improve decision-making.

Vaultify – Secure Password Storage Web Application

- Building a secure platform that allows users to store and manage their website IDs and passwords safely.
- Implementing Firebase Authentication for secure user login and account protection.
- Using Firebase Firestore for encrypted and reliable cloud-based data storage.

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- **Runner-Up**, X-Plore 2024, Jagadambha Engineering College.
- **Winner**, Circuit Design Competition, JDIET Yavatmal.
- Participate, **Smart India Hackathon**.
- **Winner**, Reel Making Competition, GCOE Yavatmal
- **Executive**, Electronics and Telecommunication Students' Association (2025–2026).
- **Social Media Secretary**, Electronics and Telecommunication Student Association ETSA(2024-2025).
